Compensation for Tubercular Cattle.

2. The rate of compensation to be paid under section 24 of the Act to the owners of tubercular animals slaughtered and carcasses thereof disposed of pursuant to the provisions of section 23 of the Act, except steers and beef-type cows coming within the provisions of section 33 of the Act, shall not exceed sixty-five per centum (65%) of the valuation fixed by the Inspector, such valuation not to exceed the sum of one hundred and twenty-five dollars (\$125) for grade animals and one hundred and seventy-five dollars (\$175) for pure-bred registered animals, and to be computed on a basis of age, utility, conformation, and blood lines.

3. No compensation shall be paid in respect to the slaughter of any animal imported from without the Province unless such animal has been kept within the Province for not less than one year and unless, within sixty days prior to importation into the Province, had been subjected to a tuberculin test, administered by a duly appointed Inspector of the Health of Animals Branch of the Dominion Department of Agriculture, and had been found to be free from tuberculosis.

Transportation of Horses within British Columbia.

4. Horses which have been exposed to encephalomyelitis infection, or have been kept in an area within which encephalomyelitis is known to exist, shall not be led, driven, or otherwise transported from place to place within British Columbia unless they have been certified by a competent veterinarian as having been satisfactorily vaccinated against the disease.

5. Owing to the prevalence of encephalomyelitis in some areas outside British Columbia, horses, except racehorses, having been imported from points without the Province, shall not be led, driven, or otherwise transported from point of entry into the Province to any other point within British Columbia without a permit to do so first being obtained from the Department of Agriculture and a certificate of vaccination satisfactory to the Chief Veterinary Inspector having been submitted to him.

6. In applying for a permit to transport horses under Regulation 5, full particulars regarding each animal must be given, these particulars to include name of animal, colour, age, sex, weight, description, brands if any, and breed.

8. Racehorses must be transported locally from railway or dock to the race-track and return by truck, and not on foot. Further transportation through the Province must be by railway-car or other closed carrier.

9. No racehorse shall be moved from any race-track to any place except another race-track or quarantine area established by the Department of Agriculture without permit first being obtained from the British Columbia Department of Agriculture.

10. All race-tracks in British Columbia are hereby established as quarantine areas within which animals are subject to supervision and inspection by Inspectors appointed pursuant to the said Act.

11. Any racehorse owned or maintained outside of British Columbia and brought into this Province for race-meets, if not returned to its place of origin at the conclusion of the current racing season, must be vaccinated against encephalomyelitis.

12. Upon receiving a petition signed by seventy-five per centum (75%) of the live-stock owners of any described area or district, who collectively own fifty per centum (50%) of any particular species of animal in the said area or district, the Minister may request the Lieutenant-Governor in Council to declare such area to be a disease-free area, and all regulations governing such area shall apply to all animals of that species kept within the boundaries of such area.

13. The boundaries of a disease-free area may be changed from time to time as the Lieutenant-Governor in Council sees fit.

14. Any owner whose land and (or) premises is outside the prescribed boundaries and adjacent to a disease-free area may make application in writing to the Minister, stating that he is the owner of such species of animal described in his application and requesting disease-control services similar to those given in a disease-free area.

15. No person shall move or cause to be moved from a disease-free area any animal of the species being dealt with, or any animal capable of carrying any of the diseases being controlled into the disease-free area until such animal has been shown to be free from the disease or diseases being controlled, by test or otherwise, to the satisfaction of the Inspector and a permit has been obtained from the Chief Veterinary Inspector.

16. An Inspector may at any time require that any vehicle, crate, or other conveyance used for the transportation of animals be cleansed and disinfected to his satisfaction, and no person shall use such vehicle, crate, or conveyance until the required cleansing and disinfecting has been carried out to the satisfaction of the Inspector.

17. An Inspector may require that any animal or group of animals be withheld from a specific area within the disease-free area.

18. An Inspector may require an owner or his representative to assemble his animals in a convenient place for the purpose of examination or for taking samples or making tests or vaccinations or for treatment or for any other purpose and in the event of refusal by the owner or his representative may cause the same to be assembled for such purpose, and any costs resulting therefrom shall be paid by the owner.

19. Tests, treatments, vaccinations, and inspections of animals shall be in the form prescribed by the Minister.

20. All animals being vaccinated shall be suitably branded, tagged, or otherwise marked to the satisfaction of the Chief Veterinary Inspector.

21. All reactors to the tuberculin test or to the agglutination blood test for brucellosis or to any prescribed test shall be suitably marked or branded to the satisfaction of the Chief Veterinary Inspector.

22. Any animal reacting to a tuberculin test or to the agglutination blood test for brucellosis or any of the prescribed tests shall be removed or otherwise disposed of without the consent of and only as directed by the Chief Veterinary Inspector.

23. Reactors to the agglutination blood test for brucellosis or to any of the prescribed tests may be required to be immediately removed from the herd or from the disease-free area and disposed of in the manner directed by the Chief Veterinary Inspector.

24. An Inspector may at any time require that any animal be held in such a manner as he may see fit to direct and for such a time as he may require for further examination, testing, or vaccination and in the event of refusal by the owner or his representative may cause the same to be held, and any costs resulting therefrom shall be paid by the owner.

25. The Chief Veterinary Inspector may require that all animals being added to a herd or brought on to a farm or premises in a disease-free area be first tested, treated, or vaccinated to the satisfaction of the Inspector.

26. An Inspector may require that all buildings, corrals, and equipment shall be cleansed and disinfected to his satisfaction.

Every person who fails to comply with any of the provisions of these regulations shall be guilty of an offence and liable, on summary conviction, if a corporation, to a fine of not more than one hundred dollars, and, if an individual, to a fine of not more than fifty dollars, and in default of payment, to imprisonment for a term of not more than thirty days.
